

UNIVERSITY OF PETROLEUM AND ENERGY STUDIES

SEMESTER END- STUDENT FEEDBACK ON TEACHING, LEARNING & COURSE DESIGN

In order to ensure that students have an enriching learning experience, the **University of Petroleum and Energy Studies** has implemented certain Quality Assurance systems and procedures. In particular, to ensure the quality of teaching, learning and assessment, the University collects feedback from various stakeholders for the purpose of continuous quality improvement in the courses taught. While the University implements appropriate Quality Assurance systems and procedures, it is useful to note that learning is very much a collaborative effort and requires the active participation of students and faculty.

Therefore, on completion of courses this semester, it is time to seek your feedback on Teaching, Learning and the Curriculum for the courses you have taken. Your feedback is important as it will help us to consider your concerns and difficulties, if any, and consider improvements that may be necessary to enrich your learning experience. Your feedback helps UPES work towards higher excellence by self-correcting and self-perfecting. Hence, please do participate in this survey actively and give your valuable feedback.

We invite you to provide feedback on Teaching and Learning in three sections below.
